SUMMARY

I am a highly motivated Full Stack Developer with a solid foundation in ASP.NET Core and modern front-end technologies. I specialize in both Back-End development using .NET Core MVC and Front-End development with HTML5, CSS3, JavaScript, and React. With hands-on experience in API integration, database management, and user interface development, I am eager to contribute to a dynamic team and bring innovative solutions to life.

TECHNICAL SKILLS

- **Back-End**: .NET Core, ASP.NET MVC, API Development, Entity Framework Core

- **Front-End**: HTML5, CSS3, JavaScript, React, Angular, Bootstrap

- **Development Tools**: Visual Studio, GitHub, SQL Server

- **Languages**: C#, TypeScript, JavaScript

RELEVANT EXPERIENCE

- **Back-End Developer | Small Hotel Project**

  - Developed back-end services using ASP.NET Core and Entity Framework Core.

  - Integrated database functionality using LINQ, and created APIs to streamline data access.

- **Full Stack Developer | TV Channel Website**

  - Built a complete website using ASP.NET Core MVC, integrating databases with Entity Framework Core.

  - Designed the front-end using HTML, CSS (Bootstrap), and ASP.NET Razor pages.

- **Front-End Developer | Dictionary App (Angular SPA)**

  - Created a single-page application (SPA) with Angular, focusing on modularity, reusability, and performance.

  - Employed component-based architecture with Angular's Standalone Services for seamless front-end interaction.

- **Full Stack Developer | Training and Rehabilitation Center Website**

  - Developed the back-end using ASP.NET Core and front-end with Angular, enabling efficient data handling and user interaction.

  - Implemented API connections and database interactions using Entity Framework Core.

EDUCATION

- **Bachelor of Computer Science - Software Engineering**
  Idlib University | 2021 – Expected 2026

- **Full Stack Developer (ASP.NET Core & Angular)**
  MIDAD Project - "1000 Programmers" | 2023 – 2024

TRAINING COURSES

- **Back-End API Development with ASP.NET Core** (30 hours)

- **Front-End Development with Angular** (36 hours)

- **MVC Architecture with ASP.NET Core** (20 hours)

- **Object-Oriented Programming in C#** (26 hours)

- **Entity Framework Core** (18 hours)

SOFT SKILLS

- **Team Collaboration**: Works well within cross-functional teams.
- **Problem-Solving**: Efficient at resolving complex technical issues.
- **Adaptability**: Quickly learns and applies new technologies.
- **Time Management**: Manages multiple tasks and meets deadlines.
- **Attention to Detail**: Ensures high-quality, clean, and tested code.
- **Communication**: Clear and concise in technical explanations.
- **Critical Thinking**: Analyzes problems and makes effective decisions.
